

We Provide The Leading Digital Experience Management Service to Enhance Your Business

Overwhelmed with your digital presence?

We help businesses like yours create an online identity. Website design, development, management, and digital marketing all should be managed under one roof.

Who is Maven Marketing Group?

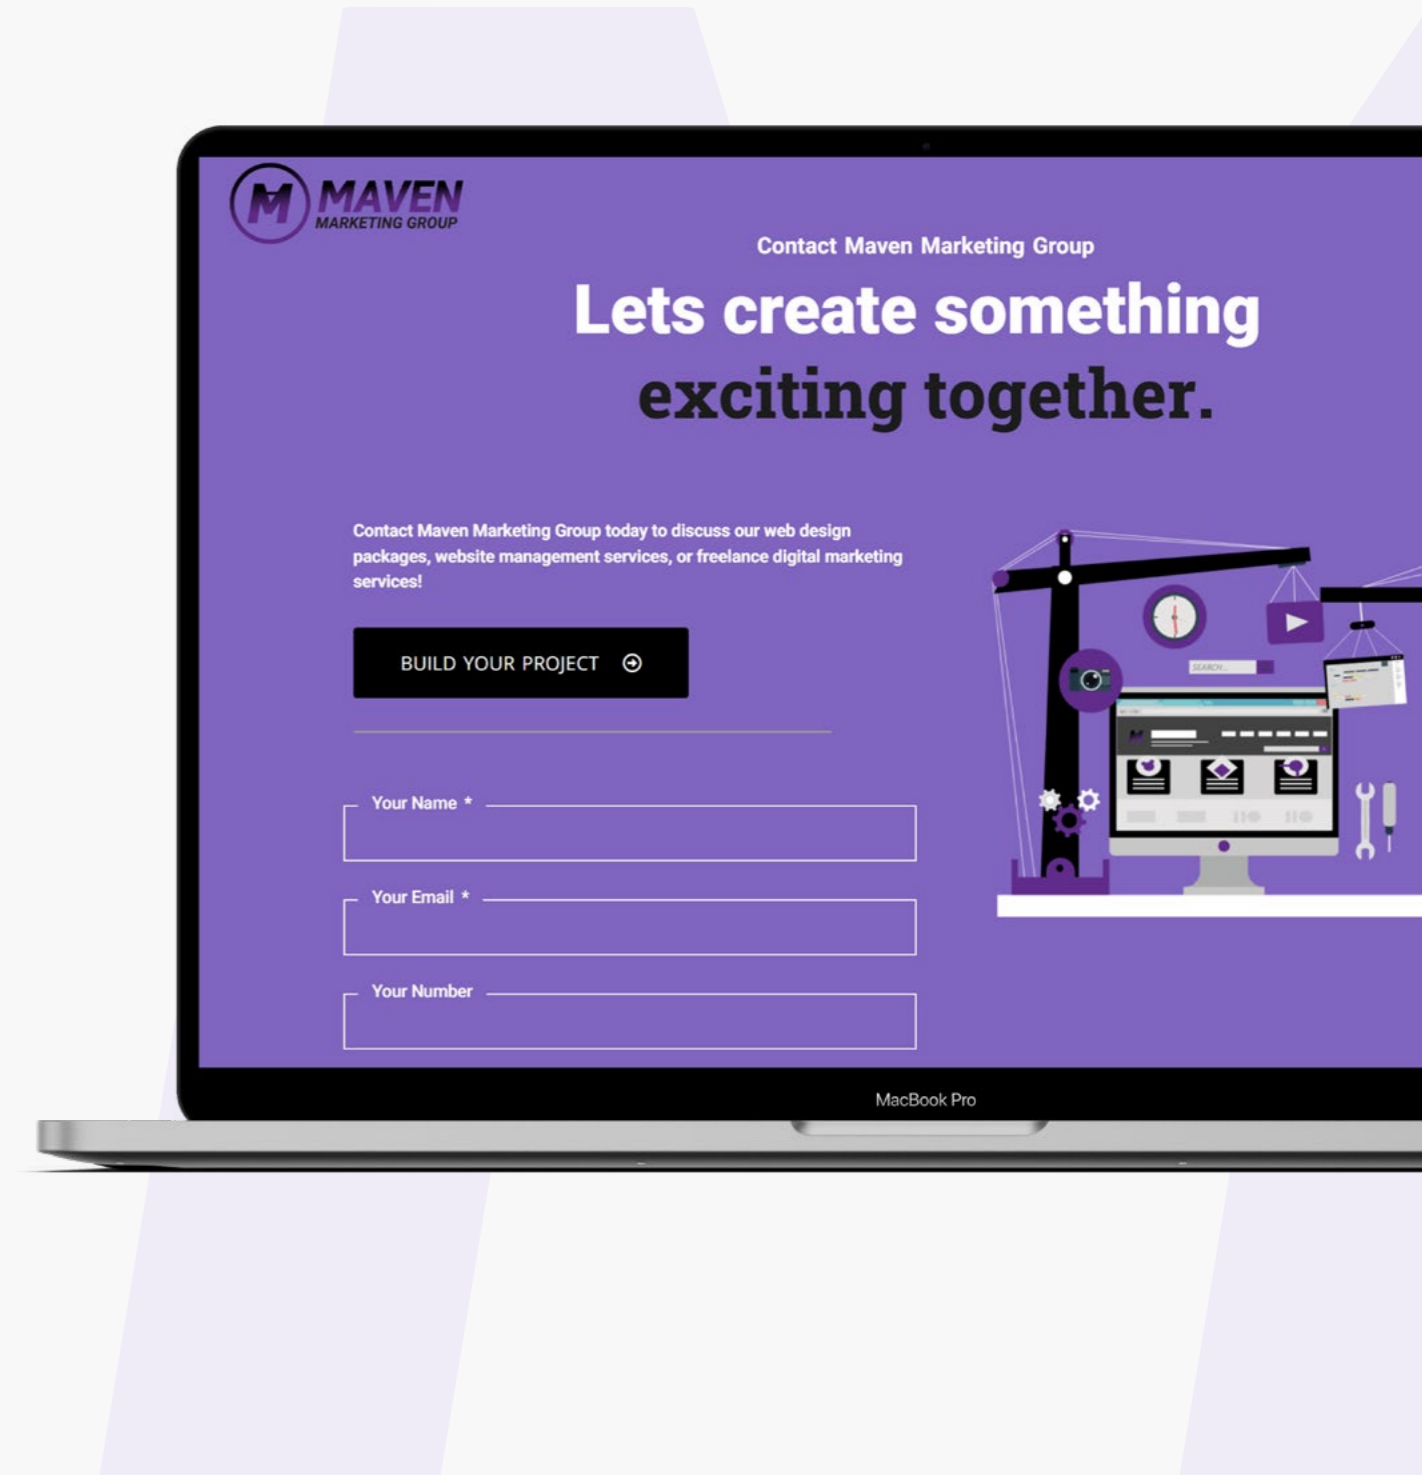

Maven Marketing Group was founded in 2019 on the core principle of bringing small businesses into the digital age. We are a Chicago based company, with clients all over the United States (& world).

Maven Marketing Group has matured into a full-stack freelance digital marketing agency that focuses on offering high-quality web design packages, website management services, and freelance digital marketing services!

Although we have not abandoned our roots, our main focus is on providing our clients with the best freelance digital marketing experience you can find out there!

Your vision mixed with our creative skills will always drive the best results. We are the best in service for your business' digital goals!

Maven is a world class experience. It's time to stop spending countless hours learning digital marketing strategy, and start growing your business with professional digital marketing experts.

We at MAVEN offer a wide variety of development, design, and marketing Services:

SIMPSON in Action
Check out the latest SIMPSON news, tips, tricks, and more!

The SIMPSON Advantage
As the inventor of an industrial cleaning and painting company, Jack Simpson created the first SIMPSON pressure washer in 1961. The new pressure washing technology gave Jack's crew a clear advantage and they quickly became known for delivering high quality work in a lot less time than their competition. Today, SIMPSON still leads the industry in quality, innovation, reliability, and performance - and with over 60 years of industry-leading experience built into each of our products, it's easy to see why backyard heroes and job site champions everywhere prefer the SIMPSON Advantage.

DRIVEN BY PERFORMANCE™ **DRIVEN BY INNOVATION** **DRIVEN BY YOU**

SIMPSON Parts and Service
Keep your machine performing at its best with genuine SIMPSON parts and service.

CRX Engines

2019 - 2022

SINGLE CYLINDER ENGINES

Our powerful line of CRX engines have been engineered to perform in a wide range of outdoor applications. We've fine-tuned every component to ensure your equipment has the power it needs for every job, every time. Whether you're a DIY'er, or Industry Pro, CRX engines represent consistency, reliability and functional innovation.

[View Full List](#)

V-TWIN ENGINES

Big jobs need big power, and the CRX V-Twin Engine Line is the perfect power match for commercial/industrial applications. Built to last with premium features such as full pressure lubrication, oil cooler and filter, heavy-duty muffler, advanced air filtration system and a 20A alternator. If you're looking to maximize your machine's power output, CRX meets the demand for reliability and performance, every time you need it.

[View Full List](#)

CRX 165

- Heavy-duty dual element air filter
- Manual fuel shut-off valve
- Cast iron cylinder sleeve
- Steel blower housing
- Low oil auto-shutdown sensor prevents damage to the engine when oil volume is low
- Heavy-duty steel recoil cover

Oil filter and external oil cooler extends the life of the oil and prevents premature wear and tear on critical mechanical parts. Exclusively available on CRX V-Twin engines.

EPA Compliant. CARB optional on most models except CRX1000.

THE E-SUITE LIFE

New E-Suite options available. Contact your sales representative for more information.

- Electric Start**
Get to work faster no matter what job or environment your in. Our E-start option saves time, effort, and gets the job done hassle free.
*Available in 12v and 18v
- Electric Choke**
Never waste time again on manually choking your engine to start your job. With our motorized choke lever, you're guaranteed to start right up every time.
*Requires FNA E-suite engine control module
- Electric Fuel Injector**
Takes precise control of your engine speed, reduces emissions and ultimately improves start-up and run time over the life of your engine.
*Requires FNA E-suite engine control module
